PRESIDENT'S WIDOW IN WAR WORK

Mrs. Thos. J. Preston, Jr. (Formerly Mrs. Grover Cleveland) Active Secretary of Security League Committee.

Mrs. Thomas J. Preston, Jr. (formerly Mrs. Grover Cleveland), who was recently elected a member of the Executive Committee of the National Security League, the first woman to be so honored, has joined the executive staff of the league as secretary of the Committee on Patriotism Through Education, through which the league is promoting a campaign throughout the country to awaken the people to a realization of the true

MRS. THOMAS J. PRESTON, JR.

meanings of the war and the necessity for its efficient and aggressive prosecution.

Mrs. Preston is at her desk in the new offices of the Security League, 19 West Forty-fourth street, New York city, daily, conducting the voluminous correspondence connected with the work of her committee, which now extends into every state in the Union.

In accepting the secretaryship, Mrs. Preston wrote Dr. Robert M. McElroy: "I am happy in accepting this opportunity to work with the league. I can think of no way in which I could more surely contribute my share to the present needs of our country than by joining in the very important work which your bureau has undertaken."

JUNGLE LAW.

(Contributed by ROBERT HERBICK to the National Security League's campaign of Patriotism Through Education.)

"Returning from Europe, cursed with war, I was more convinced than of anything else in life that what is being slowly settled in that grim trench land over there DOES mean something to us—more, oh, so much more, than money or legal rights or sympathy for bleeding humanity. Not that I am especially apprehensive of a raid on these United States, the crumbling of our skyscrapers, with the exaction of colossal indemnities. That, too, of course, might happen if German arms were triumphant, if the pax Germanica were imposed upon a beaten world.

But that is not to me the worst. To me the German peril does not lie so much in her big guns, her submarines, her "Prussianized" war machine." It lies in herself, in her image of the world. If Germany could win even a partial victory under her monstrous creed of applied materialism, illuminated as it has been by every sort of cynical crime, with its reasoned defiance of contract, its principle of "indispensable severities," its military logic, etc., THAT must become the moral law of all the world—the jungle law! In order to survive we must all accept this law of the jungle. And of all the prostrate peoples of the world forced to accept the victor's new version of the ancient commandments, proud America would be the first. We cannot resist the fascination of success. So the German ideal, the German tyranny over the individual, the German morality—one rule for you and me as individuals and another utterly irresponsible rule when we get together as a state—would be imitated by us more than the German thoroughness in civil and military organization.

NATIONAL MOVE FOR PHYSICAL REGENERATION

Started by National Security League Through Committee Headed by Walter Camp.

Impressed by the fact that 29 per cent. of the young men called to the colors in the draft are being rejected for physical disability, the National Security League has started a nationwide movement to promote the physical welfare of the youth of the land through the organization by communities of branches of a Committee on Physical Reserve, of which Walter Camp, veteran trainer of athletes, is chairman. In answer to a letter sent by the league to the mayors of all the cities in the country of over 5,000 population asking them to appoint committees to co-operate with Mr. Camp, 200 committees in 30 states have already been appointed to carry out the idea. Associated with Mr. Camp on the Committee on Physical Reserve are William G. Anderson, member of the Advisory Committee of Yale University Gymnasium, and Joseph E. Raycroft, member of the War and Navy Departments Commission on Training Camp Activities.

"Economic Disaster." In discussing this new effort of the Security League, S. Stanwood Menken, president of the league, said:

"The National Security League has taken up this work because the country cannot afford without serious economic disaster to lose the benefit of the service of nearly one-third of the men who are drafted for military duty because of physical unfitness and whose places must be taken by those who have dependents. The draft figures show that 29 per cent. of the men are physically unfit. The work is necessary, as, with the strain upon American brain, it is essential that public attention be focussed upon the need of paying also due regard to physical safety. The efficiency of the human engine and the ability of the man-power of the nation to withstand attrition, and the extra work that the men who are doing things have to bear at present, makes it important that these men should recognize the part that physical exercise plays in their ability to bear their full load of work.

Life Worth \$11,000.

"Furthermore, with the difficulty in supplying a full quota of labor for industries, it is necessary that the man-power of the nation should be increased by the maximum measure of physical strength. Every individual has a direct interest in seeing that this result is brought about. As an economic matter, each life is estimated to be worth to the nation \$11,000 and we cannot afford to waste any part of this most valuable national asset. As a human matter we cannot as a Christian people, supposedly representing the highest intelligence and civilization, allow our people to neglect the simple things which would save them if fully understood.

"The work which Mr. Camp has undertaken is a movement of such nationwide importance and so manifestly needed that its mere presentation will commend it to every thoughtful American."

"Thoroughly Agree."

Some of the indorsements of the Security League idea in organizing this nation-wide campaign for physical regeneration read:

Mayor Connell of Scranton, Pa., "I thoroughly agree with you as to taking care of our young men physically and morally, and I am pleased to co-operate with you."

Mayor Rasmussen of Fairport Harbor, O., "Anything that will promote the welfare and manhood of our young men throughout these United States has my full sympathy."

Mayor Hincke of Pinckneyville, Ill., "I am very much in favor of this movement."

Mayor Hickman of Altus, Okla., "I assure you that I look upon the number of young men rejected in the draft for physical disability with grave concern, and it is gratifying to me to know that steps are being taken to remedy this condition of affairs."

Mayor Bardine of Juniata, Pa., "We are ready to work hand in hand with any object that is for the upbuilding of our town and will make it a better place in which to live."

Mayor Barron, Eau Claire, Wis., "I am very much interested in the successful operation of your plan."
